Who we are

For more than 125 years, MSD has been researching medicines and vaccines to combat the world's most important diseases with the mission of improving the world and the lives of people and animals. The company is committed to patient and community health by improving access to care solutions through long term strategies, programs and partnerships. Today, MSD is at the forefront of research into the prevention and treatment of diseases that threaten humans and animals including cancer, infectious diseases such as HIV and Ebola, and new animal diseases with the ambition of being the world's leading research based biopharmaceutical company. MSD is the short company name of Merck & Co., Inc. with headquarters in Kenilworth, New Jersey, USA.
