Intern Cyber Innovation (m/f/d)*

Location
Munich

You are interested in IT and the Cyber world? And also how to manage the constant changing risks associated with this technical and economic environment? Munich Re is exploring new business models outside insurance to better manage these Cyber risks. For such ongoing innovative projects we are looking for assistance within international, cross-units teams.

Your job
- Help put the team together to design prototypes of potential products
- Participate in client interviews to obtain feedback on proposed prototypes
- Conduct market research to learn from other companies that work on similar topics
- Assist data analytics teams to interpret cyber related data

Your profile
- MS Student in Information Systems Management, Computer Engineering & Science, Innovation Management or MBA

About us
Munich Re is one of the world’s leading reinsurance companies with more than 11,000 employees at over 50 locations around the globe. We are working on topics today that will concern the whole of society tomorrow, whether that be climate change, major construction projects, gene technology or space travel. We find solutions to these challenges through a network of highly qualified professionals who anticipate risks, work on tailor-made solutions and expertly advise our clients. If you want to help shape the future as part of one of our teams, we look forward to hearing from you. Please click on the link to apply online.

Make it happen.
