Location
Munich

EU/LA1.5 looks after the regional clients for the UK, Ireland, The Netherlands, Scandinavia and Baltics. We deal with all casualty classes, with a clear bias towards motor on both a proportional and non-proportional basis. Digitalization is a big topic that we aim to monetize with our clients. We are therefore looking for a „Praktikanten“ with a mathematical background to support our team.

Your job
● evaluations, analysis and visualisation of exposure and single loss data embedded in the current motor non-proportional database
● detection of data inconsistencies and improvement of data quality
● implementation of measures how to ensure data consistency
● collaboration in developing and improving our new data base

Your profile
● Bachelor or Master student of a quantitative field such as mathematics, business mathematics, statistics, computer science or similar
● Very good knowledge of MS Office (esp. Excel) and advanced knowledge in programming languages (R or Python), nice to have knowledge in VBA, SQL
● Experiences with relational databases, data models
● Fluent in English
● Strong interest in insurance terminology
● Creative, open-minded and hands-on approach
● Good communication and collaboration skills
