

Turn theory into practice

Intern for AI innovation project (m/f/d)*

Support us to push the envelop for AI in insurance

Location
Munich

Let's meet future challenges together – join our innovation team! For our Global Innovation Unit at Munich Re, we are looking for an open-minded, curious and engaged intern to support us in identifying and developing ideas to shape the future. We continuously build promising products and solutions to meet new demands, leverage opportunities of upcoming technologies and actively shape emerging markets and industries. Our innovation playing fields include, among others, climate and energy, cyber risks, insurtech, mobility and IoT. To unearth new trends and find the right interdisciplinary partners for our innovation journey, we operate innovation labs around the globe and work together with our Innovation Scouts in the Silicon Valley and Tel Aviv.

If you want to experience innovation in the making, join our team as an intern (5-6 months) to cut business diamonds out of rough ideas. We also have a number of part-time positions for motivated students who are keen to continue working for us after a full-time internship and pursue their studies at the same time.

Your job

- Collaborate in the conception, validation and implementation of an AI innovation project
- Accompany the process from concept to venture building
- Support the business model validation and help to build a first MVP
- Drive market analysis of cutting edge AI providers and develop competitor analysis
- Learn about the future trends in the application of AI in insurance and beyond
- Get hands-on experience in a small project team with high responsibility for your own tasks
- Advocate new trends in terms of technology, methodology and strategy
- Assist in the preparation of pitches for potential customers, partners and internal stakeholders

Your profile

- Entrepreneurial mindset and keen to take responsibility for own sub-projects/ tasks
- Current master's student with an above-average bachelor's degree and high interested in innovation, entrepreneurship and AI
- Practical experience with start-ups, corporate innovation, consulting or IT
- Understanding of innovation management methodologies and the development of digital business models
- High affinity with technical topics, ideally with data analytics or coding skills
- Creativity, openness, communication skills and eagerness to join an international and interdisciplinary team
- Fluency in spoken and written English, sound working knowledge of Microsoft Office applications

About us

As the world's leading reinsurance company with more than 11,000 employees at over 50 locations, Munich Re introduces a paradigm shift in the way you think about insurance. By turning uncertainty into a manageable risk we enable fundamental change. Join us working on topics today that will concern society tomorrow, whether that be climate change, major construction projects, medical risk assessment or even space travel. Together we embrace a culture where multiskilled teams dare to think big. We create the new and the different for our clients and cultivate innovation. Sounds like you? Make it happen and be part of Munich Re.

- You will work in an environment where we think big: Change and culture are continuously role-modeled. We create and articulate a compelling and ambitious shared purpose, vision and direction. We pave the way towards success and see failure as learning
- You are going to experience that we care & dare: We are empathetic. We know when to lead and know when to let others lead. We attract, grow and coach future leaders
- We communicate in a clear & authentic way: We interact with a positive and humble spirit. We solicit feedback, ask and listen, learn and unlearn
- You will grow with your clients: Whatever our role, we support business, in an efficient and effective way, to create value for our clients. We embrace new ways of working leveraging digitalization to deliver solutions
- Join us, and experience that we lead the We: We have a passion for winning and growing as a team. We inspire people to be capable of joint performance. We create an inclusive environment where different thoughts, generations, cultures and experiences are valued and encouraged
