Internship in Cyber Underwriting,
Supporting the Corporate Client Segment (m/f/d)*

Location
Munich

The department is responsible for the facultative and corporate Cyber business within Munich Re, i.e., provides Cyber insurance and reinsurance solutions to large corporations in Europe and Rest of World. Our mission is to be the leading global cyber risk re/insurer by using cutting edge cyber security knowhow, underwriting expertise and individual skillsets to develop a profitable book of business and support our large corporate clients.

If you are highly motivated and want us to help in pioneering the ever evolving cyber landscape within a dynamic and global team, we are looking forward to your application. You will have the chance to develop a sound understanding of the day-to-day job of a Cyber underwriter, from reviewing submissions over assessing the quality od the risk from a cyber security perspective and analysing the scope of the cyber cover to defining appropriate terms and conditions, negotiating and closing the risk. You will also get insights into current cyber threats and how they can impact insurance coverage. With your analytical and structured working style you will help us to master the challenges of the current Cyber insurance environment by bringing our data quality and portfolio steering capabilities to the next level.

Ideally available in a full-time basis during the first six months.

Your job

• Closely work with the underwriters to support them throughout the daily underwriting process, thus getting first hand knowledge in Cyber underwriting
• Take the lead on key parts of the underwriting process and support the creation of policy documents
• Reactively and independently drive forward data quality initiatives
• Develop and maintain analysis dashboards in Power BI as a basis for improved steering of the Cyber portfolio
• Build a network and coordinate with interfacing teams worldwide

Your profile

• Bachelor or Master student in Economics, Natural Sciences, Informatics or Law
• Strong interest in cyber and data analytics topics
• Strong work ethics, flexibility and eagerness to learn and develop
• Proven ability to self-motivate and drive
• Good analytical and structural working style
• Fluency in English (Written and Oral) and/or German
• You are able to work on-site in our Munich offices (at least to a certain degree)

About us

As the world’s leading reinsurance company with more than 10,000 employees at over 50 locations, Munich Re introduces a paradigm shift in the way you think about insurance. By turning uncertainty into a manageable risk we enable fundamental change. Join us working on topics today that will concern society tomorrow, whether that be climate change, major construction projects, medical risk assessment or even space travel. Together we embrace a culture where multiskilled teams dare to think big. We create the new and the different for our clients and cultivate innovation. Sounds like you? Make it happen and be part of Munich Re.
