Junior for Programming and IT-Coordination within Reinsurance Accounting (m/f/d)*

For the Central Division Reinsurance Accounting (Non-Life)

Location
Munich

As a valued partner, Reinsurance Accounting (RIA) provides reliable and timely accounting information to internal and external stakeholders. We passionately support business value-creation while relying on harmonised processes, methods, and tools to efficiently lead global operations. We are a global, diverse team of highly motivated experts who value open communication and are eager to actively help shape the reinsurance accounting of tomorrow.

Within RIA, the department RIA1.3 “Operations Non-Life” has the overall responsibility for the Global Non-Life Technical Accounting and Claims Handling organisation.

To strengthen our Client Account Service team, we are looking for an enthusiastic and innovative colleague to support the design, programming, implementation, and testing of automation solutions for our daily tasks and processes, as well as to support our role as the IT coordination unit (responsibility for several central units).

Your job

- Supporting the RIA Automation Engineer in designing, prototyping, and implementing automation solutions
- Participating in testing activities of new solutions including their documentation
- Supporting RIA Operations in technical matters, including data extraction from SAP, reporting, and visualisation
- Training new digital solutions within the global RIA Operations community
- Performing IT coordination tasks within RIA and further central units, including:
  - Authorisation management (FS-RI, EDWH, SIMA, IFRS17, etc.)
  - Incident management
  - Interface to identity and access management (IAM)
  - Storage maintenance (e.g. V-Drive, SharePoint)
  - Consulting RIA and the central units on IT systems and IAM-related issues
  - Implementing further IT-related strategic decisions and goals

Your profile

- University degree, ideally in computer science or information technology, or equivalent education with a strong IT focus
- Practical experience in programming and applied database knowledge
- Practical experience with the Microsoft Power Platform would be desirable
- Experience with the SAP-based RI admin and reporting systems (BuPa, EDWH, FS-RI, FS-CO) would be an advantage
- Experience with internal user and access rights management (identity and access management – IAM) is a plus
- Experience in user support combined with a high degree of customer focus
- Very good command of written and spoken English and German
- Excellent analytical and conceptual skills and a focus on results
- Strong interpersonal skills and a willingness to work in interdisciplinary and international teams
- Motivated, enthusiastic, positive and proactive attitude with an excellent team spirit
- Motivated, enthusiastic, positive and proactive attitude with an excellent team spirit

About us

As the world’s leading reinsurance company with more than 11,900 employees at over 50 locations, Munich Re introduces a paradigm shift in the way you think about insurance. By turning uncertainty into a manageable risk we enable fundamental change. Join us working on topics today that will concern society tomorrow, whether that be climate change, major construction projects, medical risk assessment or even space travel.

Together we embrace a culture where multiskilled teams dare to think big. We create the new and the different for our clients and cultivate innovation. Sounds like you? Make it happen and be part of Munich Re.

- You will work in an environment where we think big: Change and culture are continuously role-modelled. We create and articulate a compelling and ambitious shared purpose, vision and direction. We pave the way towards success and see failure as learning
- You are going to experience that we care & do: We are empathetic. We know when to lead and know when to let others lead. We attract, grow and coach future leaders
- We communicate in a clear & authentic way: We interact with a positive and humble spirit. We solicit feedback, ask and listen, learn and unlearn
- You will grow with your clients: Whatever our role, we support business, in an efficient and effective way, to create value for our clients. We embrace new ways of working leveraging digitalization to deliver solutions
- You and your experience that we lead the world. We have a passion for winning and growing as a team. We inspire people to be capable of joint performance. We create an inclusive environment where different
