Intern Risk Assessment
Electrochemistry (m/f/d)*

Location
Munich

Munich Re’s Green Tech Solutions unit has for many years been a pioneer of performance warranty insurance for technologies in the renewable energy field. Its covers in photovoltaic and wind energy have since become market standard. The offering is extended by emerging green technologies like hydrogen, electric mobility, circular economy and geological risks. Supporting the energy transition by insuring multi-year products and performance warranties reduces long-term technology risks – a key aspect for the massive investments needed to transform the world of energy, manufacturing and mobility. To further strengthen our team, we are looking for a strong intern who will support our risk analysis experts.

Your job

- work closely with our technical due diligence team focusing on green hydrogen and battery-technologies
- streamline and harmonize the Request For Information procedure during the technical due diligence according to latest international standards and certifications for batteries and hydrogen technologies
- conceptualize and implement a well-structured database providing comprehensive overview of the standardized testing procedures stipulated
- support the team in assessing long term performance risks of electrochemical energy storage and conversion technologies and contribute to the development of pricing approaches

Your profile

- excited about the perspective of electrochemical technologies in e-mobility, stationary storage and hydrogen production
- basic knowledge in electrochemistry and testing methods
- above-average bachelor’s degree in chemistry, material sciences, energy engineering or related
- well organized and structured approach/mindset to tackle a task
- independent and thorough work attitude
- fluent in spoken and written English and eager to join an international team
- willing to work a minimum of 3 months as an intern at Munich RE

About us

As the world’s leading reinsurance company with more than 11,000 employees at over 50 locations, Munich Re introduces a paradigm shift in the way you think about insurance. By turning uncertainty into a manageable risk we enable fundamental change. Join us working on topics today that will concern society tomorrow, whether that be climate change, major construction projects, medical risk assessment or even space travel. Together we embrace a culture where multiskilled teams dare to think big. We create the new and the different for our clients and cultivate innovation.

Sounds like you? Push boundaries with us and be part of Munich Re.

Unlock your potential

- Diversity, Equity & Inclusion: we embrace the power of differences and are convinced that diversity fosters innovation and resilience and enables us to act braver and better.
- Continuous Learning: we believe that continuous learning is a key differentiator and critical for building new skills and accelerating growth.
- Career Mobility: we actively support career mobility, and our strong global and regional presence offers a wealth of career growth opportunities for you.
