Intern Data & Analytics (m/f/d) *

Location
Munich

Are you passionate about data engineering, data science or AI and want to be at the forefront of developing cutting-edge solutions that will shape the future of Munich Re and the insurance industry? Do you thrive on learning and taking on new challenges in a business context? Then this internship is the one for you!

Data & Analytics is a division which coordinates and drives data, analytics and AI projects across Munich Re. Our ambition is to create new/better business and new strategic options for Munich Re and our clients enabled by data, people and technology. We are dedicated to empower the organization to access and analyze data and leverage new business opportunities. We develop advanced analytics and AI solutions and provide consulting to our internal and external clients. We collaborate closely with international business units and various central units, like Innovation and IT. Nationals of countries outside the European Economic Area may be required to submit their German residence/work permit.

Your job

• Our division is looking for interns to support our highly motivated and ambitious team. Depending on your experience and preferences, various focus areas are possible.
• Advanced data analyses using latest AI techniques, machine learning and statistical methods
• Development of analytical software prototypes
• AI-based data management and data integration
• Analytical consulting and support of strategic and business initiatives

Your profile

• Studies in statistics, mathematics, computer science, physics, data science or related fields incl. business administration with a quantitative focus, completed bachelor studies is a plus
• Strong foundation in data engineering, data science or AI methodology
• Knowledge and experience in at least one analytical programming language (e.g. Python or R) as well as SQL and data visualization (e.g. PowerBI)
• Excellent communication, presentation and organization skills; high degree of motivation and hands-on mentality

About us

As the world’s leading reinsurance company with more than 11,000 employees at over 50 locations, Munich Re introduces a paradigm shift in the way you think about insurance. By turning uncertainty into a manageable risk we enable fundamental change. Join us working on topics today that will concern society tomorrow, whether that be climate change, major construction projects, medical risk assessment or even space travel. Together we embrace a culture where multiskilled teams dare to think big. We create the new and the different for our clients and cultivate innovation. Sounds like you? Make it happen and be part of Munich Re.

• You will work in an environment where we think big. Change and culture are continuously role-modeled. We create and articulate a compelling and ambitious shared purpose, vision and direction. We pave the way towards success and see failure as learning
• You are going to experience that we care & dare: We are empathetic. We know when to lead and know when to let others lead. We attract, grow and coach future leaders
• We communicate in a clear & authentic way: We interact with a positive and humble spirit. We solicit feedback, ask and listen, learn and unlearn
• You will grow with your clients: Whatever our role, we support business, in an efficient and effective way, to create value for our clients. We embrace new ways of working leveraging digitalization to deliver solutions
• Join us, and experience that we lead the We: We have a passion for winning and growing as a team. We inspire people to be capable of joint performance. We create an inclusive environment where different thoughts, generations, cultures and experiences are valued and encouraged
