Join us at Kymati – Your career in the world of high-tech radar sensors in Munich!

We are looking for talented people who want to shape the future with us and have fun doing so. Become part of our international team and contribute to the commercialization of high precision sensor solutions for industrial automation and aerospace.

Your Responsibilities:

- Collaborate with the development team to design, develop, and maintain full-stack web applications using JavaScript, React.js, and Node.js.
- Write efficient, reusable, and scalable code, following best practices.
- Conduct unit testing using Jest for both front-end and back-end applications.
- Implement and maintain responsive and visually appealing user interfaces using CSS and Tailwind CSS.
- Gain an understanding of Node.js asynchronous and synchronous programming concepts.
- Collaborate with cross-functional teams to troubleshoot, debug, and optimize applications.
- Actively participate in code reviews to ensure code quality and adherence to coding standards.
- Contribute to brainstorming sessions for feature development and problem-solving.

Your Profile:

- Strong proficiency in JavaScript and React.js.
- Experience with Jest testing for front-end and Node.js testing for back-end applications.
- Familiarity with CSS and experience with Tailwind CSS.
- Understanding of asynchronous and synchronous programming in Node.js.
- Familiarity with Python is a plus.
- Ability to work independently and collaboratively in a team environment.
- Excellent problem-solving and critical-thinking skills.
- Strong communication and interpersonal skills.
Our Offer:

- Become part of an experienced and international team that creates and celebrates success together.
- Gain initial experience in the international sales environment.
- Interesting projects with innovative technology in an exciting environment (steel mills, container terminals, heavy industry, Aerospace).
- We live flat hierarchies, maintain open communication in English and German as well as operate with short decision-making processes.
- Personal and professional development give you a long-term perspective.
- Arrange your working hours flexibly (flextime and home office).
- Take part in regular team events (games, sports and fun).
- Find your workplace in a modern environment at the gates of Munich (5 minutes’ walk to the S-Bahn Vaterstetten) or park for free with us.
- Join us for lunch in a varied and subsidized canteen.
- Enjoy amenities such as a large roof terrace, kitchen and supermarket around the corner.
