

# ANALYST

We are looking for Analysts to join our Munich team. This is an exciting opportunity to be part of a rapidly growing office within an international consultancy.

CIL is an international management consultancy that helps clients to grow their businesses, build value and invest wisely across a wide range of sectors. Our engagements are typically short (4-6 weeks) and involve an M&A element, primarily to advise private equity firms who are looking to invest in high growth businesses.

## The role

Your responsibilities will be varied, and you will:

- Grasp new business models quickly.
- Test commercial hypotheses through collecting and interrogating primary and secondary research.
- Carry out rigorous quantitative and qualitative analysis of industry and internal company datasets.
- Play a key role in debating and refining hypotheses with your project manager, drafting output for inclusion in the final report once agreed.
- Get in front of clients and help present our findings.

Although we work in structured project teams, we are socially very equal, lively, and inclusive - our culture is the product of our people. Since its inception in 2021, our Munich office has provided a supportive and collaborative base from which our people have thrived.

## Benefits

We are committed to being the best consultancy to work for. We offer:

- Rapid progression with exposure to investors and management teams from the start.
- A high-quality training programme delivered within a hugely supportive learning environment.
- Competitive remuneration and participation in our generous company bonus scheme.
- Generous holiday entitlement (30 days).
- Sabbatical and secondment opportunities as you progress through the company.
